

## THE WILLIAMSBURG FLIER

The June meeting of the Williamsburg Bird Club will be held Wednesday, June 21 at 7:30 P.M. in Millington Hall. Our speaker for this month will be Paula Frohring who will give a talk on the order Ciconiiformes (herons and ibises). Ms. Frohring is with the National Park Service and is currently working in the Everglades National Park.

We would like to thank our club members who helped with various activities at the V.S.O. meeting last month. The meeting progressed very well thanks to your efforts.

As mentioned in our last newsletter there will be no July or August club meeting, but you will receive a newsletter and we will have organized field trips. The following is a tentative list of field trips through the summer.

Don't forget to keep a bird list for the summer months and bring it with you in the fall. Shorebirds migrate early (late July and early Aug.) so if you happen to be near the shore keep this in mind; you never know what you might find. And be sure to take a field guide - shorebirds in fall plumage can be quite a challenge to identify.

OUR NEXT BIRD CLUB MEETING WILL BE IN ROOM 117, MILLINGTON HALL, WEDNESDAY,
