Ospreys are back and building nests and tree swallows have been spotted. For those who would like to add Gannets to their life list, they are being spotted in Yorktown.

**Program:**

Joe Piotrowski introduced himself as the guest speaker. Curiosity ran high when he began by passing around a jar of pennies asking each member to take one. Then he gave an illustrated talk about his one week birding in the Dominican Republic last March. He and his wife were visiting their daughter, a Virginia Tech student who was taking a semester there. VA Tech Ornithology Professor Jerry Via was teaching ornithology that week so Joe tagged along on their morning bird walks. We finally learned what the penny was for when he showed us a photo of the Vervain Hummingbird which at 2.4 grams weighs less than a penny at 2.5 grams!

At the end of the meeting a free raffle was held.

Shirley adjourned the meeting at 8:40 p.m. and refreshments were served in the lobby outside.

Respectfully submitted,
