

**Minutes of the Monthly Meeting of the  
Williamsburg Bird Club**  
November 19, 2014  
Andrews Hall, Room 101, W&M, 7:30 pm

**Attendance:** 57

**President's Remarks:**

- President Geoff Giles opened the meeting and welcomed club members including 6 visitors. He also announced that it was Cynthia Long's birthday and everyone joined in on singing 'Happy Birthday' to this long-time active member.
- Geoff enquired about interesting bird sightings. Nick Newberry, president of the W&M Bird Club reported that Rusty Blackbirds were back on campus and that they'd picked up a dead victim of window collision, a female Painted Bunting, first ever reported on campus. Bill Williams reported that the Greater White-fronted Goose is currently being seen almost daily at Mainland Farm. It is about 1/3 smaller than the Canada Geese with which it hangs out and has orange legs and pink bill. It is being speculated that it strayed over from Greenland and fell in with a flock of Canada Geese. A Snow Goose was also seen at Mainland Farm.
- Geoff asked how many were involved in the project FeederWatch to which a good number of hands were raised. He commented about how this is good practice for the upcoming Christmas Bird Count which led to the first announcement.

**Announcements:**

- Geoff asked that members mark Sunday, December 14 on their calendars for the upcoming Christmas Bird Count. He invited Bill Williams for further comments. Bill said all the information is in THE FLYER but added that he encourages anyone, even if they don't join a team, who is in the 7 1/2 mile radius from the Colonial Williamsburg Information Center to take whatever time they can afford to document bird sightings in their yard or bird feeder and report them to him along with info regarding the area covered. The Count takes place from midnight Dec. 14 to midnight on the 15<sup>th</sup>.
